

fresh as rain

You've seen many daylight fluorescent task and reading lamps advertised. While they do an excellent job of providing quality light they don't address the quality of the air you breathe.

Rain Fresh Air now provides you with a solution. The Rain Fresh Air TL500 offers the same high quality lighting combined with a highly effective Titanium Dioxide (TiO₂) based air cleaning system. Now you can enjoy high quality lighting and high quality air with the help of a single compact task lamp.

RAINFRESHTM
A I R

TL500 Air Cleaner Features Include:

- Custom TiO² fiber-wrapped lamp: Generates active radicals that aggressively destroy irritants such as germs, bacteria, viruses, mold spores and fungi
- Exclusive air cleaner positioning lever: Allows easy adjustment for maximum effectiveness

Lamp Features Include:

- Natural Daylight: High performance 90+ CRI, 27 watt fluorescent lamp
- Energy saving: Equivalent light output of a 100 watt incandescent lamp
- Superior color rendition: High 90+ CRI fluorescent lamps, colors are accurate and improved
- Less eye strain: Increased contrast for easier reading, improved visual acuity
- Lower power consumption and heat: Fluorescent lamp runs cooler and more efficiently than competing types of lighting

Specifications:

- Power: 120 volts AC
- Light: 27 watt daylight fluorescent lamp with 90+ CRI color rendering
- Air Cleaner: Titanium Dioxide (TiO²) fiber-wrapped UV lamp
- Replacement light lamp: RFL500
- Replacement TiO² lamp: RUVL500
